Items that have a basic description like "2 piece outfit", "Shirt", "Dress" or "Pants" will be returned to you. **Descriptions must have brand, item type, color and descriptive detail.**

Description Line 1 (24 characters max)*

Price*

Price: Minimum price is \$2.50. If you have small items, combine them to create a set to meet the minimum price. Prices should be about 25% of retail. Any item marked at 60% or higher than retail will be removed from the floor.

Qty: Default # is 1. If you have several items that use this same description, enter the quantity here. This is how you would enter 5 of the exact same shirts to sell individually. You won't have to enter each item individually. It will produce a bulk number of tags and add those items to your inventory. **This is not for items that have multiple pieces.** For multiple pieces, list "# pcs" like "board book set 3pcs".

Check to Discount: If you put a checkmark in this box, your item will be discounted automatically. We cannot go back and change this information during the sale. *Once this box is checked, it will stay checked for other items by default until you uncheck it!* Discounted items outsell the things that are not reduced by 75%. It's something to consider when deciding about discounting.

Check to Donate: If you do not want an item back if it does not sell, check this box. Again, once it is checked, it will stay checked by default. Items marked donate will also be marked discount.

Submit Item: Once you have entered the information for an item, click on this button to add the item to your inventory. It will not be added if you do not click on this box! **Only the last 5 items will show in the list below unless you check the box to show all.**

Working with Inactive Inventory - If you have items from a previous sale, that information is stored in your Inactive Inventory. To move items to your inventory for your current sale, go to your consignor homepage, click on "Work with Inactive Inventory", check the boxes for the items you wish to sell in the current sale (make sure clothing is seasonally appropriate) and click "Make selected inventory active".

If they are still tagged from a previous sale, you do not need to reprint tags for these items unless you change something on the tag (price, discounted, etc).

Your online inventory **MUST** be up to date and complete and **CLEAR** for the barcodes to work. **DO NOT DELETE INVENTORY AFTER YOU HAVE PRINTED YOUR TAGS.** If an item does not show up in your inventory, Fairytale Threads cannot sell it for you!

Preparing Items For Sale

Think about what you look for as YOU shop and try to make items as appealing as possible. Ask yourself, “Would I buy THAT item at THAT price?” Spending a little time getting your items ready will make a huge difference on your check at the end of the sale!

Clothing: Please hang all infant-5T clothing on plastic child-sized hangers. Please do not bring children’s clothing under size 6 on adult-sized hangers. Maternity items and juniors’ sizes should be on adult sized plastic hangers. **Plastic hangers are sold with the item, so they will not be returned.** They can be found at various retail stores. You can also use hangers that come with clothes when you purchase them at retail and department stores. **Wire Hangers are not accepted for any item.** Any items that need to be secured, should be safety pinned to the hanger. Starch, a little bleach, an iron, or a needle and thread work wonders. Trim loose threads and wash all items. **Items with stains, pet hair or odors will not be accepted.** Button all buttons, snap all snaps, tie all bows, and zip all zippers. For grease stains, try spot treating with Dawn dish soap and then wash normally. See tagging guidelines for more information.

Toys and Gear: All fabric parts should be freshly washed and reattached. Wipe down all surfaces. Goo Gone and Magic Erasers work well on crayon marks and scuffs. Please be sure that all parts are included and place any small parts in zip-closed bags, and then securely attach the bag to the main piece. Small parts that are not attached will get lost. Make sure all batteries work. Toys missing functional parts or with cracked/broken parts are not accepted. Larger sets that need to be bagged up benefit from a printed photo of the set up attached to the bag.

Furniture: We recommend that consignors take a few extra minutes at check-in to assemble large furniture items. To allow for space planning, please contact us in advance if you have furniture that is crib-sized or larger. Assembly at set up and disassembly at the end of the sale are the responsibility of the consignor. **Only cribs with a manufacture date after 6/28/2011 will be accepted. The date must be printed by the manufacturer on the crib.** We do this to be in compliance with the CPSA crib guidelines.

Pricing, packaging and presentation will make all the difference in getting your items sold!

Tagging & Organization:

Generating Tags:

- Tags are generated with a barcode from your online inventory, 6 to a page, each about 3”x3”.
- Handwritten tags are not accepted. Any tags with handwriting will be removed from the floor.
- Ensure legibility and crispness by using a working printer.
- Tags should be printed on white cardstock. Plain paper will not be accepted
- Barcodes must be clear; tags on reused cardstock will not be accepted.

Matching Inventory:

- Item numbers on tags must match your online inventory; check online to ensure accuracy.
- Consignors with more than 10 items needing manual entry at checkout will incur a \$0.50 per tag fee.

Attaching Tags:

- Use safety pins to attach tags to the top right-hand side of clothing items on hangers.
- Avoid tiny gold safety pins, straight pins, or staples.
- For clothing priced at \$10 or higher, secure tags with clear packing tape for added security.

Tagging Gun Usage:

- If using a tagging gun, attach tags to clothing labels or seams using a 3-4 inch tag to prevent damage.
- Do not use the tagging gun through the one-layer front of an item; it causes holes in the fabric.
- **Watch tagging gun video on the Fairytale Threads website under “Consignor Video Tutorials”.**

Hanger Placement:

- Hang clothing items so that the **hanger looks like a question mark “?”** from the front.
- Single pants, skirts, and pants belonging to a set should be pinned to the hanger at each side, laying flat so the front and back can be seen, not folded over the hanger bar.
- Do not use adult hangers for children’s clothing under size 5; plastic child-sized hangers are recommended.
- Clothing sized 5 and over may use adult hangers, ensuring a proper fit without falling off.
- **Wire hangers will not be accepted for any size.**

Presentation:

- Ensure clothes look neat and unwrinkled; hangable items not on hangers will not be accepted.

Categories for infant sizes

Items that are marked for an age range such as 3-6 months, you should tag it as the younger age: 3 months. If sizes are not listed on the tag, they WILL NOT be accepted.

Onesies: To maximize your selling potential, group at least 3 to a set and place on hanger. Please print ONE tag and list in the description that it has 3 pieces (3pc). Do not put onesies in a bag.

Shoes: Tie laces together or zip-tie together (no shoe boxes, zip-loc bags or tape). Make sure shoes are clean.

Socks: To maximize your selling potential, group at least 3 like pairs of socks in a bag and label.

***Item should hang so that when looking at the front of the item, the hanger hook looks like a “?”.**

***Pants must be pinned around the TOP bar of the hanger itself, not folded over the hanger then pinned.**

Pants that are folded over the hanger will be removed from the floor.

Pricing

Prices will start at \$2.50 and increase in increments of 50 cents. If items are small, please group them with like items and sell them as a group with ONE tag for the group. You can list the number of items in the tag's description.

You set the price. Look at the item and price it as though you would purchase it. Overpricing items may result in it going unsold and coming back home to you after the sale. **Any items marked over retail price or close to retail price will be returned at check in or removed from the floor.** Do not price anything that is brand new over 60% of retail. Items that were free to you- like a free t-shirt from HEB, cannot be sold.

Generally, if an item is in like new condition, you can sell it for 25-35% of the retail price. That shirt you paid \$10 for at a retail store can sell for \$2.50 - \$3. Name brand and boutique items typically resell at higher percentages.

CHECK TO DISCOUNT: If you want to increase your chances of selling your items, consider the option to reduced item price 50% on discount sale days. Only items with this box checked will be sold at a discounted price. Those items not marked will still be on sale for full price during the discount sale day. You cannot go back and change this information during the sale. *Once this box is checked, it will stay checked for other items by default until you uncheck it!* You also have the option to donate your items when the sale is over helping local families and skip the pick up process Saturday night.

Any items marked DONATE will automatically be marked "reduce."

If you are selling a set of 3 socks, print one tag that list "3pc". All tags should be printed with Fairytale Threads, LLC bar-coded system and **tags with handwritten notes will not be accepted.** There will be no price negotiating; Fairytale Threads, LLC is selling on behalf of its registered consignors.

Drop Off Appointments

Sale items will be dropped off and sorted on Sunday by appointment only. Make sure you sign up for an appointment time online and arrive at your scheduled drop-off time with your items tagged, on hangers and pre-sorted into gender, size and category (baby gear, toys, clothes, etc.).
